Weather Indications.

WASHINGTON, June 5 .- For Kansas Generally fair; preceded by showers today in eastern portions; slightly warmer in western portion Wednesday afternoon; winds becoming easterly.

Bull Hill may yet become as famous as Bull Run.

THE cloud that overhangs the financial world has a silver lining.

WITH the coal miners' strike and the postoffice fight settled Leavenworth may now enjoy its usual quiet and repose.

THE situation in Colorado doesn't com-

pare with that of poor Oregon which has to endure a flood and an election at the same time. THE appointment of thirteen Kansas

postmasters will cause about twice that number of aspiring Democrats to see the mistakes of this administration very Lincoln

SENATOR McPherson testified that he made \$1,000 on sugar by a mistake, i. e., he hadn't intended to buy. In these times Henry Clay would probably rather make mistakes than be president.

GOVERNOR LEWELLING'S machine has made his nomination certain, but the high handed methods used to accomplish it have made the defection of thousands of Populists equally sure.

Mr. Lease says he likes to do housework. If many others would learn the simple lesson of this man's life and sub-

EX-SECRETARY OF STATE HIGGINS has understood correctly the feeling of the people on silver, but he seems to be too much of a politician to perceive that the best element is in favor of woman suffrage and prohibition.

THE Union Pacific by conveying the wealers captured at Ellis back to Colorado whence they came, conferred a great favor upon Kansas which might young man who is with her-"Dean I otherwise have had that many more Coxeyites to support.

THE Democrats about Washington are claiming that they will have a majority in the next congress. Something larger and more effective than a brick house will have to be discovered if the perceptive powers of the Democrats are to be awakened.

CHICAGO Journal: Not until the memory of the present administration becomes very dim will any man have the temerity to stand up and say that four years isn't a long enough term for a president to be in office-particularly a Democratic one.

ONE hundred and three members of the house of commons have petitioned the editors of leading English dailies not to publish sensational cases of immorality out of regard for public morals. The commons evidently want to keep all mention of the nobility out of the papers.

HALF of Myron Reed's congregation at Denver left the church because they disapproved of his remarks. Other congregations over the country have recently acted similarly. The characteristics of a successful and popular preacher will soon have to be moral cowardice and intellectual inassertiveness.

THE failure of the largest grocery house in St. Joe, is another effect of these most deplorable times. The assets are said to exceed the liabilities by a good sum, so that inability to make collections probably explains this failure, as it has many others. When establishments in reality sound are compelled to close, relief of some kind is imperatively de-

manded. THE Ministerial Union of this city is the latest organization to demand the recognition of prohibition in the platforms of the Republican and Populist "Yes; I certainly do. The measure of its success depends upon the boldness of the question. The Republican conforms of the Republican and Populist vention will be either piteously blind or publicanism. unreasonably perverse if it fail to recognize the demands of the decent, progressive class of citizens by unqualifiedly endorsing prohibition and demanding its

In his letter he charges England with having precipitated the money panic here, with the aid of willing allies in this country. He saw the necessity for immediate action and took it. For this he was arrested by the orders of the money power. He refers to Judge Mil-ler as "Pontius Pilate, President Cleve-land as "Tiberius," and a number of other prominent men as congressional "Judas Issariote"

They are safe because they contain no deleterious drugs and are manufactured upon scientific principles of medicine.
